

Protective Film

Hechen New Material (Huizhou) Co., Ltd

About Us

Hechen New Materials (Huizhou) Co., Ltd.

A company specializing in the production of all kinds of protective film, including car paint protective film, UV resistant window film, furniture surface protective film .

We has more than 12 years of protective film production experience. Our independently developed products have high quality hardness protection without losing flexibility, strong anti-pollution self-cleaning, strong self-repair, strong hydrophobic, high luster, scratch resistance, corrosion resistance and other functions, the products through ROHS, CE certification. We can provide OEM and ODM product customization services to our customers.

Our products are exported to many countries and regions . In the future, we will continue to explore and technological innovation, to provide customers with excellent quality of good products and quality services.

**12 years
experience
factory**

**Annual output capacity
of 300,000 rolls**

**OEM , ODM,
Low MOQ**

Fully automated production of dust-free workshop

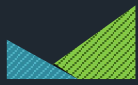

Constant temperature: Temperature is controlled at $23^{\circ}\text{C} \pm 2^{\circ}\text{C}$

Constant humidity: the humidity is controlled at 40-60%

The air cleanliness grade of the dust-free workshop reaches: ten thousand levels

Air cleanliness level of the coating head area reaches: dry level (equivalent to the workshop requirements for making food)

Car Film

01

Super pollution resistance
and weather resistance

Improve the anti-scratch
self-repair function

Super hydrophobic

Ultra-high gloss and color
protection

Transparent color ,
Multi-color optional

Product Parameter

car cover	THP series	TPU series
Material thickness	6.5/7.5mil	6.5-10mil
Overall protection	★★★★★	★★★★★★
Regular color	Transparent / frosted / black	Transparent / frosted / black
Brightness increase	50%	55%
Tensile strength	>50MPa	>55MPa
Quality Assurance	Three years	Five years
Anti-pollution ability	Oil pen after painting, easy decontamination, no infiltration	Super strong hydrophobic water, no rain spots

Protective film for furniture products

Furniture protective film

- Protect the table and extend the service life
- Anti-scratch resistance and high-temperature resistance
- Antibacterial protection, fit not firm edge
- tear open without glue

Tile / marble surface protection

- prevents cracks
- Oil pollution resistance, easy to do and easy to clean
- thermostability
- is bright and tidy

Leather / cloth surface protection

- Prevent animals from biting
- Do not fall off, leave no glue
- wear resistance and scratch resistance
- No-trace fit, reuse

Product Parameter

Furniture products film:	
Material thickness	5-10mil
Overall protection	★★★★★★
Regular color	Transparent / frosted
Brightness increase	99%
Fit way	Back adhesive paste / static paste
Quality Assurance	In 2 years
specifications	Customize according to the customers needs
characteristic:	1, waterproof oil resistance, corrosion resistance and oxidation resistance, indoor and outdoor can be used not easy to yellow unchanged hard; 2, no odor, zero formaldehyde, material grade up to pregnancy and infant level.

Protective film for auto parts

Interior film

- For car interior protection
- is anti-fouling and dirty
- fingerprint prevention
- scratch resistant

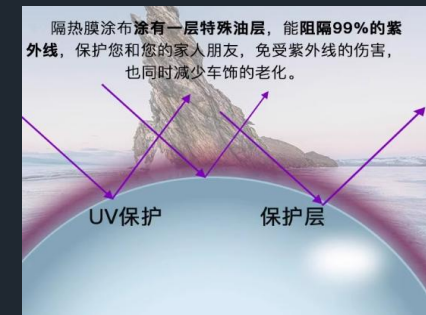

The lamp membrane

- protection lights
- anti-pollution and anti-scratch
- is beautiful and colorful

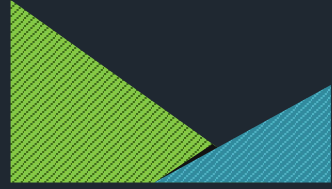

Window insulation film

- efficient heat insulation
- explosion-proof safety
- has strong privacy
- is high and clear

Product Parameter

parameter	Window insulation film	Interior film	The lamp membrane
Material thickness	5-10mil	5-10mil	5-10mil
Overall protection	★★★★★	★★★★★	★★★★★
Regular color	Transparency / color	Transparent / plush	Transparent / black
Fit way	Back adhesive paste / static static paste	Back glue paste	Back glue paste
specifications	1524/1450mm	random length	random length
Quality Assurance	In 1 year	In 1 year	In 1 year
main features	Light transmittance (VLT), thermal insulation rate (IRR), Ultraviolet light (UVR) can be customized according to customer needs	Strong performance, anti-scratch and wear-resistant, anti-fouling to reduce fingerprint, the original car control feel	Anti-resistant wear, high light transmittance, strong toughness can heat repair scratches

Sincerely cooperate with you
